

Report on Region Website

The region website is a Wordpress instance hosted by 1st Domains at an annual cost of \$152.38 (including registration of the domain name "wellingtonscd.org.nz").

The site is using about 1000MB of storage (database and files) on the hosting server, and monthly traffic is about 5GB. There is currently no breakdown of this as we are not collecting data for analysis by a service such as Google Analytics. This can be added if it would be useful.

The site is regularly updated with software fixes to ensure that detected security weaknesses are removed. There are no known breaches or unauthorised access incidents to report.

I am not aware of any problems being experienced by the people who add events, posts or other content. Current user logins are:

- Margaret Cantwell
- Lorelee Hyde
- Amy Martin
- Lee Miller
- Philippa Pointon
- James Scott
- Wellington SCD Secretary
- wellington@dancescottish.org.nz (is this required?)

There are no recommendations for changes, except possibly adding some analytics tools, if that information would be useful.

James Scott

Website Administration

I have been updating website content during the year whenever it is supplied to me. Emails with updates can continue to be sent to me either directly, or to the website administrator email (<wellingtonscd.online@gmail.com>) or through the contact form on the website.

Lee Miller
